Class Time EP-M5/3: 2 Periods

Credits 1.5

Course Description

This course builds on previous knowledge and lays the foundation for the students' further study in mathematics. We will cover many essential topics that will be necessary when the students study Calculus and higher level mathematics. Included in this course are exponential and logarithmic functions, trigonometric functions, identities and proofs, and three dimensional vectors. We will begin with exponential functions and their applications and then use these to define the logarithmic functions. Next, we will study basic trigonometry with a focus on understanding the meaning of the basic functions and their applications. We will then cover three dimensional vectors and basic vector operations. We will use vectors to model various three dimensional situations.

Course Outline & Objectives

Unit 1. Exponential Function and Logarithmic Function

1. Exponents, Rational exponents and law of exponents Pg 82-87
2. Algebraic expansion and factorization of exponents Pg 90-91
3. Interest and Money (Class worksheet and Notes)
4. Exponential function and graphing Pg 94-101
5. Logarithmic function and graphing Pg 110-126

Unit 2. Trigonometric Functions and applications

1. Sine and cosine functions Pg 231-274
2. Values of sine and cosine functions Pg 236-243
3. Trigonometric functions in various dimensions (Class worksheet and Notes)
4. Read the value of trigonometric functions from table (Class worksheet and Notes)
5. Graphs of trigonometric functions (Class worksheet and Notes)
6. Trigonometric functions of sums and differences Pg 256-263
7. Inverse trigonometric functions (Class worksheet and Notes)
8. Sine and cosine rules (Class worksheet and Notes)

Unit 3. Three Dimensional Vectors

1. Vectors Pg 275-342
 2. Vector addition Pg 276-279
 3. Vector subtraction Pg 279-281
 4. Scalar multiplication of vectors Pg 281-283
 5. Cross multiplication Pg 284-286
- (Class worksheet and Notes)

Academic Integrity Policy

Students are expected to adhere to the Assumption College student handbook. There is to be no plagiarism, no copying, and no cheating of any kind. These and any other acts of academic dishonesty lower the quality of the education and will not be tolerated. Students involved in any form of academic dishonesty, including any student supplying or allowing the copying to take place, will receive a zero. Students should be expected to earn their scores. Scores of pass should not be given unless the student has attained sufficient knowledge to earn a passing grade.

Plagiarism is the act of taking someone else's work or ideas and passing them off as one's own work or ideas. Examples of plagiarism include the failure to give appropriate acknowledgement when repeating another's idea, phrase, sentence or paragraph, or failure to give appropriate acknowledgement when paraphrasing any of those.

Behavioral Expectations

For the sake of all the members of the class, students are expected to respect themselves, their classmates, the teacher, and the facilities. Students must accept responsibility for themselves and their actions. Students are expected to be ready at the start of every class (Notebooks, textbook, scientific calculator, writing utensils, etc.) and to actively participate throughout the lesson until class is dismissed.

Behavior is monitored every day as per the class rules that are set out at the beginning of the academic year (see the front of your note books). At the end of the semester the average is taken and used for the student's behavior score (10%). Students *earn* the scores they receive.

Additionally, all Thai students are expected to embrace the following *desired characteristics*:

- Love for the country and the King, faith in religion
- Possess discipline
- Be self-sufficient
- Proud to be Thai
- Be an AC gentleman
- Eager to learn
- Dedicated to work
- Have a sense of public consciousness
- Be honest and upright

Attendance & Tardiness

Attendance will be taken at the start of every class. Students are expected to be in class on-time, every time. Unexcused absences or tardiness will not be tolerated. In the case of

planned absences, please notify the teacher in as far in advance as possible. Students are expected to catch up on all missed work outside of class time.

Homework & Class work

Homework and class work will be assigned often and must be submitted on or before the due date for a full score of 10 points. Late work without excuse will be deducted at the rate of 20% per day until the maximum possible score is zero. All work must be turned in before the last week of each term. Late work is discouraged.

Grading

This course follows to the Assumption College grading scale:

<i>Final Score</i> $\geq 80\%$	4.0
$75\% \leq \textit{Final Score} < 80\%$	3.5
$70\% \leq \textit{Final Score} < 75\%$	3.0
$65\% \leq \textit{Final Score} < 70\%$	2.5
$60\% \leq \textit{Final Score} < 65\%$	2.0
$55\% \leq \textit{Final Score} < 60\%$	1.5
$50\% \leq \textit{Final Score} < 55\%$	1.0
<i>Final Score</i> $< 50\%$	0.0

Evaluation and Assessment

The final semester grade for this course out of 100% is broken down as follows:

Class work	20%
Class Participation	10%
Note book	10%
Behavior	10%
Quizzes	10%
Midterm (Summative) Exam	20% (program mandated)
Final Exam	20% (program mandated)

Recommendations for Success

Mathematics can be a difficult course for many students. All students are encouraged to try the following:

1. Read, read, read the course textbook. Often, reading the text once is not enough even for native English speakers. You may need to read the material multiple times to understand. By reading along at home with the lessons taught at school (typically only a few pages per night), students will be able to responsibly manage the material and gain the most from the course.
2. Search online, in either Thai or English, if you don't understand a topic discussed in class or simply to get a better understanding of the topic.
3. Get a Thai language introductory mathematics book.
4. Do **not** copy your classmates work; struggle through and do the work on your own! This is how you learn!

THE **ENGLISH PROGRAM** AT ASSUMPTION COLLEGE
Course Syllabus – Semester 1/2026

5. Come see the teacher outside of class time for assistance.
6. Do more than just the bare minimum; there are plenty of problems in the textbook. We only have time for so many of them. Do the review questions at the end of the chapter and see the teacher for the answers.
7. Study the notes and vocabulary at least a few minutes every day, such as in homeroom or during any free time you might have in other classes.

Class Time EP-M5 - Two Periods a Week for Each Class

Credits 1

Course Description

This course aims to prioritize learners' reading, writing, listening, and speaking skill development in General English. The course is designed to help students progress towards achieving a CEFR C1 level.

Textbooks

Cosgrove, A. and Wijayatilake, C. (2022) Prepare Level 8 Student's Book with eBook, Workbook

Course Outline & Objectives

Week 1: Icebreaker Activities and Establishing Classroom Routines

Weeks 2-4: Unit 3, *All in one piece*

- Reading: An article about the human body
- Listening: Career Advice (Summary Completion)
- Speaking: Discussing the human body and its capabilities / abilities
- Vocabulary: Describing the human body, Phrasal verbs and idioms / fixed expressions related to the human body
- Grammar: Revision of modal verbs (speculation, deduction, permission, obligation, advice)

Weeks 5-6: Unit 4, *Making your Mind Up*

- Reading: Cross-text multiple matching (opinions about gap years)
- Vocabulary: Language for making decisions, Collocations for life events
- Grammar: Revision of past modal verbs (ability, advice, obligation, permission, regret, speculation/deduction)
- Project: Making a life decision

Weeks 7-9: Unit 6, *Blockbusters and Bestsellers*

- Reading: Gapped Text activities & developing awareness of cohesion
- Writing: A review
- Vocabulary: Film and books, Collocations to describe entertainment
- Grammar: Verb patterns (gerunds and infinitives)
- Project: Creative Thinking

MIDTERM EXAM

Week 11: Reviewing the Midterm

Weeks 12-15: Unit 7, *Against All Odds*

- Reading: Multiple matching
- Speaking: Reacting to what people say
- Vocabulary: Challenges and achievements, Noun suffixes (word formation)
- Grammar: Revision of conditionals (0, 1, 2, 3)

Weeks 16-18: Unit 8, *Making Ends Meet*

- Reading: Multiple matching
- Vocabulary: Money and wealth, idioms and phrasal verbs for money
- Grammar: *Wish / If only*
- Project: Job interviews

FINAL EXAM

Resources

- Required
- 1 notebook (1 white notebook)
 - Folder for English only (to keep handouts, etc.)
 - Textbooks
 - Blue or black pen + red pen for checking work
 - Dictionary (English to English)

Other resources such as worksheets will be given throughout the summer semester. These may be shared on Google Classroom in digital form.

Homework & Classwork

Homework and classwork will be assigned often and must be submitted on or before the due date. Late assignments can be submitted but some marks will be taken off as a penalty. All late or missed assignments that are not turned in *before* the last week of the term will receive a zero. For an assignment to be submitted after the due date, the student must provide:

- Their name & surname
- Student ID number
- A reason for explaining the delay and late submission
- A suggestion for a new due date

The grade for the summer course will be primarily taken from coursework done in class. Classwork will be provided feedback / error correction and will be handed back in a timely fashion.

Evaluation and Assessment

The final summer semester grade for this course out of 100% is broken down as follows:

Formative	50%
Behavior	10%
Midterm	20%
Final	20%

Recommendations for Success

English can be a difficult course for many students. All students are encouraged to try the following:

1. Have your materials for English on your desk at the beginning of class.
2. Pay attention and listen carefully while taking notes.
3. Always use English during discussions.
4. Do your homework yourself and do not copy.
5. Come see the teacher outside of class time for assistance.
6. Always do your best.

Credits 1

Learning Content Description

Students will study the principles of marketing and how to apply them. Focusing on the 4Ps of product marketing with product, price, place and promotion in an international setting we will explore both advertisement as well as personal selling. In service marketing the 4P model will be extended to the 7P model with physical evidence, process and people. Students will learn through the analytic thinking process, problem solving process, practices, group work, and attitude building process. Students are expected to subsequently develop the ability to communicate, to think, and to solve problems in a business and marketing context. Life skills and the use of technology are also to be enhanced through this course of study. Students will additionally develop lifelong learning skills, as well as skill sets to be creative and innovative -- think creatively, demonstrate innovation, use critical thinking, solve problems wisely, communicate effectively, and be a team player to work productively with others. International marketing related skills will be the focus of this course. Students are expected to learn about sales and marketing as well as on-line marketing and the use of social media. Students have to keep themselves updated with news and information, to gain a good judgement on media, to become well-rounded individuals in the field of marketing in the digital age. Other skills that will be fostered are life and career skills which cover flexibility, adaptability, creativity, self-responsibility and social skills. As for the students' desired characteristics, the course will focus on ethics, honesty, discipline, avidity for learning, dedication for work and public service.

The goals of the Principles of Marketing subject and the Learning Outcomes are to:

1. Apply concepts and principles to effectively manage the marketing of products and services.
2. Explain the principles of marketing including product, price, place and promotion for running marketing organizations on a national and international basis.
3. Present how to apply the marketing principles to various industries and product categories.
4. Know the principles of service marketing and evaluate their application with morality and business ethics.

Course Description

This course is designed to use data analysis in a programming environment. The course will focus on introducing students to the general terminology and concepts of programming and use application of python as a tool capable of solving real world problems, and advanced python syntax. Students will build on knowledge from M3 computer programming to learn about more theoretical computer science topics (algorithms, data structures, abstraction, software design). Additionally students will learn how to use python to solve problems and learn practical use cases for python programming. Finally students will learn advanced python syntax not covered in M3 programming.

Additional skills will be taught in Excel as a method for data analysis in a business/scientific environment

Academic Integrity Policy

Students are expected to adhere to the Assumption College student handbook. There is to be no plagiarism, no copying, and no cheating of any kind. These and any other acts of academic dishonestly lower the quality of the education and will not be tolerated. Students involved in any form of academic dishonesty, including any student supplying or allowing the copying to take place, will receive a zero.

Plagiarism is the act of taking someone else's work or ideas and passing them off as one's own work or ideas. Examples of plagiarism include the failure to give appropriate acknowledgement when repeating another's idea, phrase, sentence or paragraph, or failure to give appropriate acknowledgement when paraphrasing any of those.

Behavioral Expectations

For the sake of all the members of the class, students are expected to respect themselves, their classmates, the teacher, and the facilities. Students must accept responsibility for themselves and their actions. A behavior score (out of 10 points) is taken every day. At the end of the semester the average is taken and used for the student's behavior score (10%). Students *earn* the scores they receive.

Additionally, all Thai students are expected to embrace the following *desired characteristics*:

- Love for the country and the King, faith in religion
- Possess discipline
- Be self-sufficient
- Proud to be Thai
- Be an AC gentleman
- Eager to learn
- Dedicated to work
- Have a sense of public consciousness
- Be honest and upright

Attendance & Tardiness

Attendance will be taken at the start of every class. Students are expected to be in class on-time, every time. Unexcused absences or tardiness will not be tolerated. In the case of planned absences, please notify the teacher in as far in advance as possible. Students are expected to catch up on all missed work outside of class time.

Homework & Classwork

Homework and classwork will be assigned often and must be submitted on or before the due date. Late assignments can be submitted for a maximum of 50% up until the last week of the term. All late or missed assignments that are not turned in *before* the last week of the term will receive a zero.

$50\% \leq Final\ Score < 55\%$	1.0
$Final\ Score < 50\%$	0.0

Evaluation and Assessment

The final semester grade for this course out of 100% is broken down as follows:

STEM	10%
Homework/Classwork	30%
Coursework	30%
Behavior	10% (program mandated)
Midterm Exam/Project	10% (program mandated)
Final Exam	10% (program mandated)

Recommendations for Success

Information technology can be a difficult course for many students. All students are encouraged to try the following:

1. Read, read, read the teacher's online notes. Oftentimes, reading the text once is not enough even for native English speakers. You may need to read the material multiple times to understand. By reading along at home with the lessons taught at school (typically only a few pages per night), students will be able to responsibly manage the material and gain the most from the course.
2. Search online, in either Thai or English, if you don't understand a topic discussed in class or simply to get a better understanding of the topic.
3. Do **not** copy your classmates work; struggle through and do the work on your own! This is how you learn!
4. Come see the teacher outside of class time for assistance.
5. Do more than just the bare minimum; there are plenty of problems in the teacher's online notes. We only have time for so many of them. Do the review questions at the end of the chapter and see the teacher for the answers.
6. Study the notes and vocabulary at least a few minutes every day, such as in homeroom or during any free time you might have in other classes.

Course Description

This fundamental statistics course provides students with a comprehensive toolkit for data analysis and interpretation, crucial for research and decision-making across fields. Starting with data collection methods, students learn to gather accurate, relevant data, forming the basis for any analysis.

Basic data analysis introduces students to the organization and preliminary examination of data, setting the stage for deeper insights. Measures of central tendency—including the arithmetic mean, median, mode, harmonic mean, geometric mean, and mid-range—allow students to summarize data by identifying central values, while relative standing measures like quartiles, deciles, and percentiles enable comparisons within data sets. Students also explore measures of dispersion such as standard deviation and box-and-whisker plots, which reveal data variability and outliers. Standard deviation is particularly emphasized for understanding the spread of data around the mean. This leads into the study of the normal distribution, a foundational concept in statistics that describes how data naturally clusters around the mean, with applications in natural and social sciences.

Finally, students delve into correlation, which assesses the relationship between variables, providing insight into how changes in one variable might predict or impact changes in another. Altogether, this course equips students with statistical methods to analyze, interpret, and communicate data findings effectively, preparing them for data-driven roles in research, business, healthcare, and beyond.

Student Syllabus for: EP5 English for Life Skills 3: EN30243

Teacher: Mr. Joshua Bolen, J.D. (Mr. Bolen)

COURSE DESCRIPTION:

Welcome to English for Life Skills M5! Through a series of engaging and enriching lessons using Mr. Bolen's selected materials, students will continue to strengthen their core knowledge of the language.

The Students will study and listen to a range of English texts. The Students will study and learn how to give effective presentations. They will use learning skills in the 21st century, which encourages the students to be able to have listening, critical thinking and problem solving skills. The learning skills will be used to make students possess learners' key competencies, which are thinking capability, problem solving capability, capability in applying life skills and capability in technological application. This will be done through the teaching and learning focusing on promoting Thai wisdom with respect to the language and literature and religion and tradition. Teaching and learning also promotes students to live under the Sufficiency Economy Philosophy. Students will be provided with desirable characteristics such as love of nation, religion and king, honesty and integrity and self-discipline. Additional important characteristics are avidity for learning, observance of principles of Sufficiency Economy Philosophy in one's way of life, dedication and commitment to work, cherishing Thai-ness, public-mindedness and gentlemen of Assumption College.

COURSE OBJECTIVES:

Indicators

1. Listen to speakers from a range of countries, using different accents and talking in a range of contexts and situations.
2. Predict content before a listening exercise. Use contextual clues to anticipate topics, potential vocabulary and potential grammatical structures before listening.
3. Listen for gist. Show an understanding of the main ideas of a listening exercise after one listen.
4. Understand signposting language when listening. Show a knowledge and understanding of signposting language and how and why it is used. Make lists of the most common signposting language.
5. Listen for detail. Pick out specific information in a listening passage.
6. Infer relevant details when listening. Use contextual clues to gather information about meaning, who is speaking, what is happening and other questions appropriate to the listening exercise.
7. Practice listening activities that are connected to relevant international exams. Some of these should be done with past-paper questions and done in exam conditions.
8. Explain/discuss how listening can be improved, what techniques can be used and useful sources of practice material.

9. Watch examples of good and bad presentations. Have an accurate understanding of the characteristics of good and bad presentations and be able to plan presentations using the good characteristics and avoiding the bad characteristics. The focus should be on presentation skills that may be useful for university admissions and studying at university.
10. Use verbal communication to effectively present information. Use various techniques such as variation of tone of voice and the stress of important words to convey ideas more clearly and concisely.
11. Use non-verbal communication effectively. Use various techniques such as body language and eye contact to show confidence to the audience.
12. Use signposting language effectively when presenting. Show a knowledge and understanding of signposting language and how and why it is used. Make lists of the most common signposting language that are used during presentations.4. Talk and write interactively about personal information and other surrounding incidents, experiences, situations, news/events, and interesting issues in public attention, and communicate continuously and properly.

Learning Contents

Study English on the topics of news, announcements, poems, skits, pictures, different non-text information styles such as maps, graphs, and initiatives. Study non-fictions, fictions, personal information, various experiences, incidents, themes from analyzed stories, languages, voices, social manners and cultures, traditions and customs, festivals, language structures, idioms, proverbs, poems, ways of life, beliefs and cultures of native speakers, and information related to other learning content groups. Use process of establishing knowledge and understanding, reading process, process of establishing practical skills, working process, process of language skills, process of establishing attitudes, process of conceptualization, process of analysis, process of establishing realization, and process of establishing communicative knowledge and understanding to create knowledge and understanding, communicative ability, thinking ability, problem-solving ability, life skills, and ability to use technology. At the same time, students will have the following intended characteristics which are nationalism, religiosity, loyalty, disciplines, diligence, self-sufficiency, endeavor, love of being Thai, and public mind.

Student Syllabus for: EP6 English for Academic Achievement 3: EN30209

Teacher: Mr. Joshua Bolen, (Mr. Bolen)

COURSE DESCRIPTION:

Welcome to English for Academic Achievement M6! Throughout the semester we will continue to explore the skill groups of reading, writing, speaking. Through a series of engaging and enriching lessons using Mr. Bolen's selected materials, students will continue to strengthen their core knowledge of the language.

This course is writing, reading, listening and speaking intensive. You will regularly practice your writing, reading, listening and speaking skills. In-class essays, participation, presentations, quizzes and exams make up a majority of your grade.

The course is at an advanced beginner/pre-intermediate level and will move along with the pace of the majority of the class. If you miss a class, it is your responsibility to find out what you have missed, either from your classmates or by seeing me on your own time, not during class time.

COURSE OBJECTIVES:

Indicators

1. Read statements, news, announcements, correctly according to reading strategies.
2. Explain and write about sentences and statements corresponding to different non-text information when reading including identifying and writing different non-text information styles corresponding to sentences and statements when listening and reading.
3. Find main idea, analyze, summarize, and interpret ideas and express opinions when listening and reading non-fictions and fictions including giving reasons and examples to support ideas.
4. Talk and write interactively about personal information and other surrounding incidents, experiences, situations, news/events, and interesting issues in public attention, and communicate continuously and properly.
5. Talk and write about the summary of main idea/theme when analyzing stories, activities, news, events, and situations according to personal interests.
6. Choose languages, voices, and manners appropriate to personal levels, opportunities, and places according to social manners and cultures of native speakers.
7. Explain/Discuss ways of life, ideas, beliefs, and origins of customs and traditions of native speakers.

8. Explain/Compare differences between sentence structures, statements, idioms, proverbs, and poems of foreign and Thai languages.
9. Analyze/Discuss similarities and differences between ways of life, beliefs, and cultures of native speakers and Thai people and use them reasonably.
10. Search for, collect, and conclude information/facts related to other learning content groups from learning resources and present it with speaking/writing.
11. Use foreign languages to investigate/search for, collect, analyze, and conclude various knowledge/information from media and other learning resources for further education and careers.
